Attachments: PFAS Management Plan_DRAFT 10.25.18 R8 comments version (2).docx

The PFAS team has reviewed and has very few comments on the attached and an overall positive message on the rewrites (see Sarah and Lisa's comments below).

Doug, with your travel schedule you may not have had the opportunity to review the draft and may want some extra time (comments are due to Hannah and Peter by COB on Wednesday, 10/31). If that is the case please let me know and I can send on our initial thoughts and let Peter know you may have additional items you'd like to share.

Let me know if you have questions.

Thanks!
D

Subject: Region 8 comments on UPDATED: Draft PFAS Management Plan

Hi Darcy,

We've got a few minor edits in the attached document itself, and this overarching comment penned by Sarah:

The revised document is significantly improved! It's well organized now to clearly and concisely convey what EPA has done already, what input EPA received on PFAS actions, and what EPA plans to do and why in response to that input.

We're overall pleased with the revised version.

Thanks, Lisa

Subject: UPDATED: Draft PFAS Management Plan

Thanks to each of the programs and Regions for your helpful comments on the preliminary draft PFAS management plan. Please see attached to this message an updated draft of the PFAS management plan, which has been revised based on the comments received. Note that in several sections of the document, we received conflicting comments, and in the revised draft we have sought to best accommodate all of the comments we have received. We welcome input you and your program staff can provide to further strengthen this draft. You will also note that we also need to fill in some of the dates for the actions identified in the executive summary, and we will appreciate the programs adding this information where this field is left blank for the actions you are responsible for.

The work described in this preliminary draft reflects a tremendous amount of outstanding work that is taking place across the Agency, and in partnership with the other federal agencies, the states and tribes, and local

communities. While the short descriptions of activities cannot do justice to the scope and importance of these efforts, the goal is to ensure that the draft management plan conveys the strategic choices the Agency is making to balance the need for near-term action with the need to be deliberate in carefully considering the appropriate next steps to protect human health and the environment. Thanks again to all for your excellent work and collaboration on this effort!

Please provide your office/region's consolidated comments to Hannah Holsinger with a cc to me no later than COB on Wednesday, October 31. For your reference, I have also attached a schedule that outlines next steps for development of the PFAS management plan.

PFAS National Management Plan: Draft Timeline

Date	Activity
